Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. 3. In light of the amendment filed 2/28/05 (entered per filing an RCE on 4/5/05), the 35 USC 102 and 103 rejections have been withdrawn.

Allowable Subject Matter

4. Claims 1-20 are allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest forming electrolessly plated structures for electronic components having alternating ceramic and electrode layers by forming

Art Unit: 1762

a termination structure by fully immersing a plurality of electronic components into an electroless plating bath whereby plating material is applied to the ends of the exposed electrode layers to bridge the plating material to form the termination structure. The prior art teaches dipping or partially immersing the ends of a single electronic component and there is no suggestion to fully immerse a plurality of electronic components instead of the ends as in the prior art.

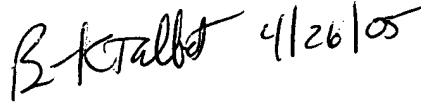

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
